

Factory Background

XYMJ was founded in 1999 in Zigong, China

Zigong Xingyu Cemented Carbide Dies & Tooling Co.,Ltd established in 1999. We are always dedicated to manufacture high quality and precise tungsten carbide products. We win a frame of high quality in both domestic and overseas market.

Our advantages:

- › High tech production equipment
- › Experienced engineers & workers
- › Excellent after-sales service
- › Advanced process technology
- › Professional inspection equipment
- › Provide industrial solutions and accept OEM&ODM

Tungsten Carbide Spare Parts

We manufacture many parts, including flow control components, bushings, seats, gates, and stems, oil nozzle, as well as ported flow cages, and thrust bearings.

Valve Spares

Tubes&Chock Beans

Valve Plug

Tungsten Carbide Bearing Bushing

Tungsten carbide bearing bushings as wear parts on the equipment, its high hardness, tensile, compressive strength, wear resistance, corrosion resistance, to better meet the drilling and mining oil, natural gas and other industries in the process of mining friction wear-resistant parts of all machinery and equipment, special requirements.

Tungsten Carbide Valve& Nozzle

Why Choose Tungsten Carbide

- › High hardness
- › High abrasion and corrosion resistance
- › High pressure resistance
- › High temperature resistance
- › Cost savings, increased productivity and long service life

Professional Manufacturer Of Tungsten Carbide Wear Parts
Zigong Xingyu Cemented Carbide Dies & Tooling Co., Ltd

20 years+ Experience
60+ Countries and region

150 ton+ Annual output
200+ Employee

500+ Project

6000m²+ Covering area

Professional Manufacturer Of Tungsten Carbide Wear Parts
Zigong Xingyu Cemented Carbide Dies & Tooling Co., Ltd
